Experience

Frontend Developer, CSRBOX - IBM SkillsBuild (Internship, Remote)   June 2024 – July 2024

- Built a web app for the Sustainable Development Goal "Life on Land" using React, Tailwind CSS, GSAP, and Lenis.
- Collaborated in a professional environment, improving teamwork and problem-solving skills.
- Gained experience in UI/UX optimization, accessibility, and version control.
- View project: life-on-land-plum.vercel.app

Projects

AI Form Builder (Full Stack)   Link

AI-powered web app for dynamic form generation with smart field suggestions and real-time customization.

Key Features:

- AI-powered form generation with smart suggestions.
- Real-time editing and customization.
- Secure submission handling.

Tools: Next.js, React.js, Node.js, PostgreSQL/Drizzle ORM, AI

AI Mock Interview App (Full Stack)   Link

AI-driven interview platform that generates domain-specific questions and evaluates responses.

Key Features:

- AI-based question generation and evaluation.
- Real-time feedback on candidate responses.
- Multi-domain support with adaptive difficulty levels.

Tools: Next.js, React.js, Node.js, PostgreSQL/Drizzle ORM, AI

Chatgram (Full Stack)   Link

A real-time chat application with authentication and media sharing.

Key Features:

- One-on-one and group messaging.
- Media sharing (images, voice messages).
- Secure authentication and real-time updates.

Tools: MongoDB, Express.js, React.js, Node.js, Socket.io, Clerk

Technologies

Languages: JavaScript , HTML , CSS , C++

Frontend: React.js, Next.js, Tailwind CSS, GSAP, Lenis, Framer Motion, Redux, Zustand, Context API, React Router

Backend: Node.js, Express.js, PostgreSQL, MongoDB, Drizzle ORM, Prisma, Mongoose, Redis, Socket.io, Clerk, JWT, NextAuth.js

UI Libraries: Acernity UI, Ant Design, Daisy UI, Hyper UI, Material UI, ShadCN, Uiverse

Others: AI, Local Storage

Education

ASN Senior Secondary School, Senior Secondary (12th Standard), CBSE		2020-2022
Noida International University, Bachelor of Computer Applications (B.C.A.)		2022-2025
